

## **Manchester United**

Manchester United Football Club is one of the most famous sports teams in the world. Their distinctive red and white uniforms are recognised by fans not only in England, but worldwide – there are even fan clubs among nomadic tribes in Africa. It is also the most successful football team in English history, winning the league title no fewer than twenty times.

The team plays at Old Trafford in Manchester – and has done for 110 years. It is now a publicly traded company that is listed on the New York Stock Exchange and is valued at more than \$2 billion, making it the most valuable soccer club in the world.

Along with these impressive statistics, the team has been home to some equally impressive players. Perhaps the most famous is David Beckham, who joined the team as a youth player and was part of the organisation for twelve years. The team's history is not all one of triumph, however. In 1958, eight members of the team were killed in an air crash in Germany; yet the indomitable spirit remained. Only ten years later, they became the first English team to win the European cup.
