

My Home

I love my home. I live in an apartment in a small building. There is a bedroom where I sleep, a kitchen where I cook, a living room where I watch TV, an office where I work, and a bathroom where I shower. The bed in my bedroom is very soft and comfortable and warm. The TV is big and has bright colours – I like to watch movies on my TV. There is a desk in my office. I don't like my desk as much as my TV, because when I am sitting at my desk, I have to work. Working is not as fun as watching movies, but I have to work to earn money – and I do like money!
